

## CORNICE NR. 109 "SMALL VICTORIAN" (VICTORIAN IN STYLE)

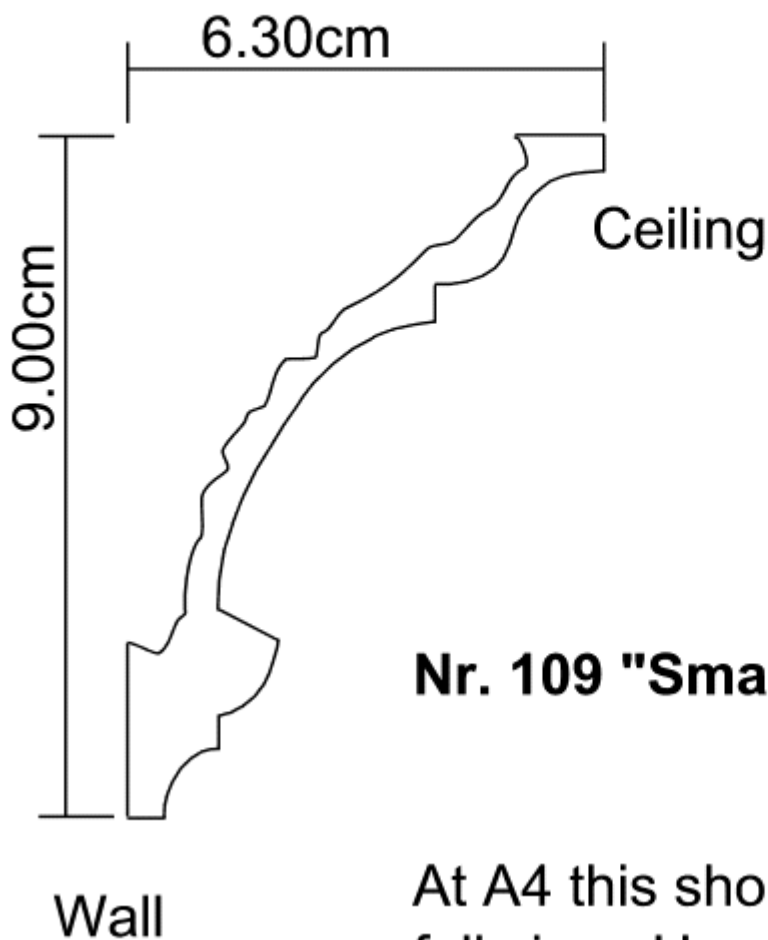

A small cornice design, this one is very popular some years, other years not at all. Strangely there is no apparent pattern or reason to this variation.

Yes, it is a smaller than average pattern - this makes it entirely suitable for modern homes or any project with a lower ceiling. In fact this cornice was commissioned for the former Railway Hotel at Ayr, Scotland where a huge quantity was installed.

As the index number suggests, this is one of our longest established products - well above twenty years in fact. Therefore You can usually rely on acquiring more "of the same" many Years after your original purchase.

An approximate full size cross section appears on page two.

**Projection 65mm. (c.2.5")**  
**Depth 90mm. (c.3.5")**  
**Length of Cast 3400mm. (10'11")**  
**Plain Run Profile**

### **Nr. 109 "Small Victorian"**

At A4 this should reproduce at full size. However please don't absolutely rely on this freehand sketch for cross sectional details.

We have a piece of this, the actual piece illustrated on page one is fixed in our Dewsbury showroom. Please do visit and inspect it.

***Page two of two.***
