

Cornice Nr. 162 “Montpellier”

(Victorian in style)

A “new” cornice design, well new to our catalogue that is. But this design is actually from the century before last, being a careful reproduction of what existed in some huge apartments in Harrogate prior to a major refurbishment during 2005/ 2006.

As one can see from the dimensions below, this pattern is above “average size”, will therefore be very suitable for large rooms and certainly areas with a fairly high ceiling.

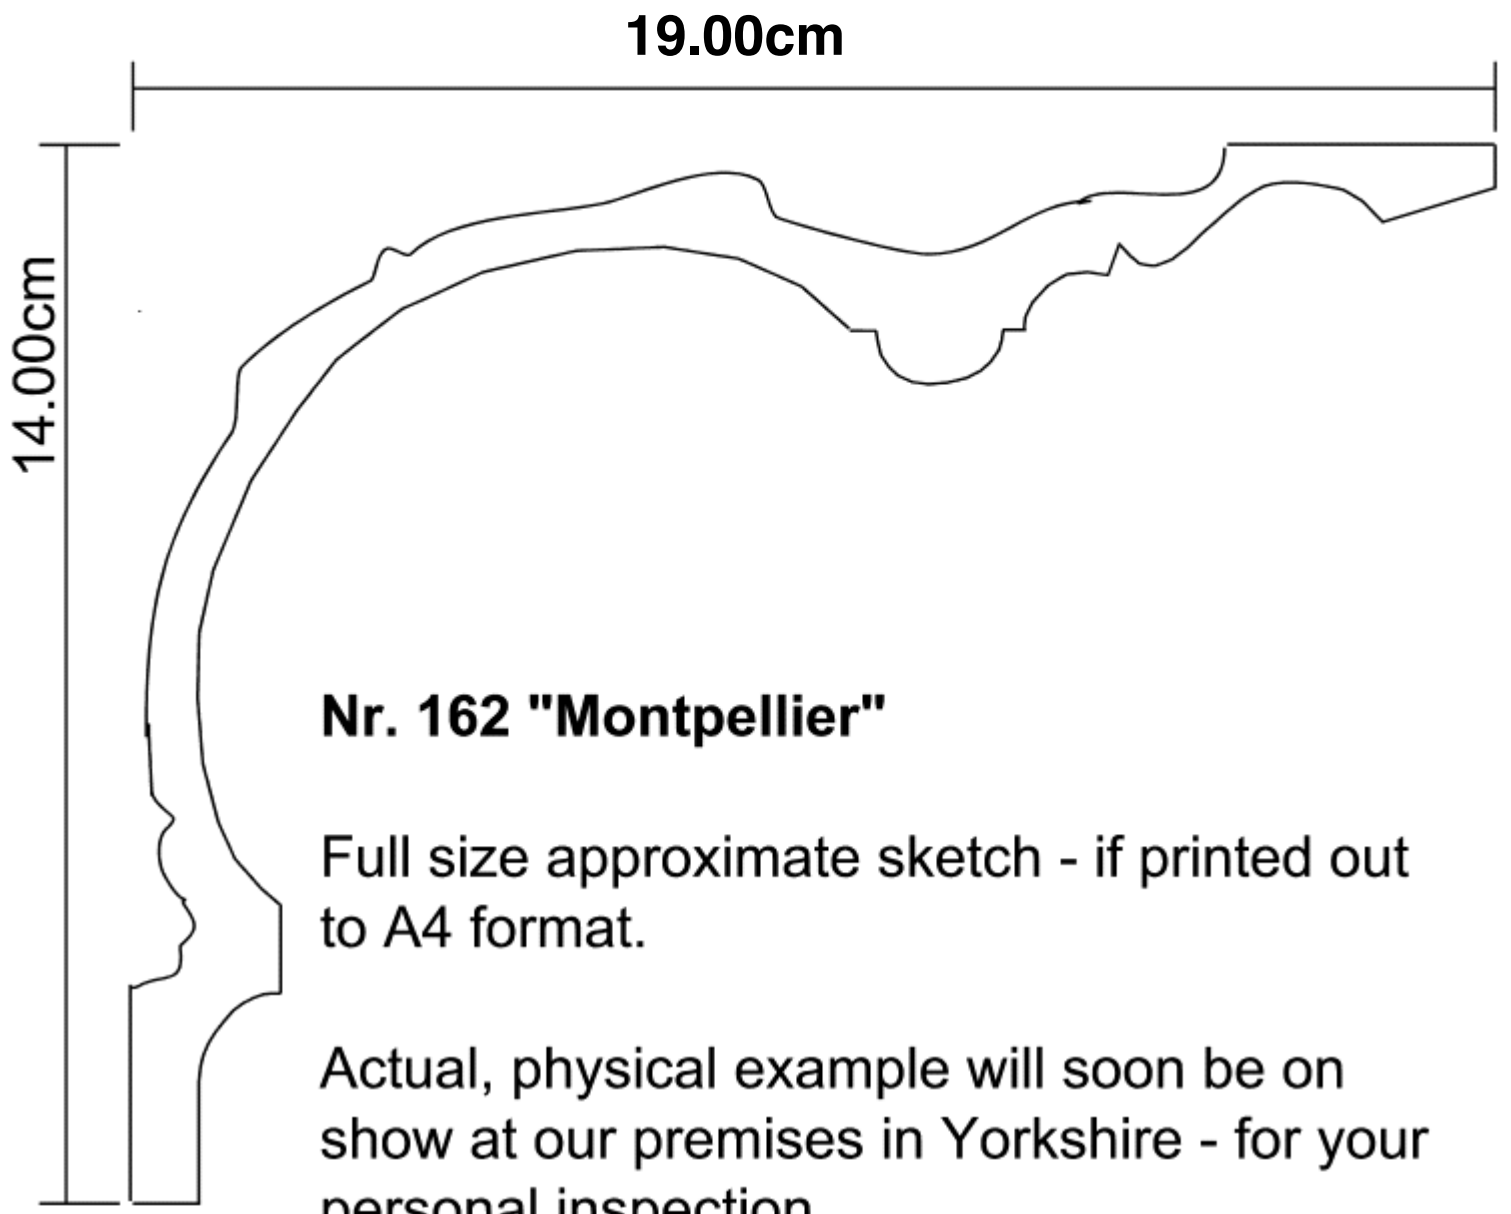

For a better idea of the actual cross section, please see page two of this document.

Projection 190mm

Depth 140mm

Length of Cast 3500mm (11’6”)

Plain Run Profile

Nr. 162 "Montpellier"

Full size approximate sketch - if printed out to A4 format.

Actual, physical example will soon be on show at our premises in Yorkshire - for your personal inspection.
