

## **Cornice Nr. 137 “Odeon”**

**(Art Deco in Style)**

Original , also slightly unusual. From a period that many people now consider to be quite exciting - an Art Deco cornice design, a nice design too.

Deceptively large, I've installed in our bathroom where it looks absolutely super where it honestly doesn't seem so big after all, the ceiling in there is actually the lowest area in our home.

While this is larger than “average”, there is also a larger, much larger version of this pattern, our number 138 “Astoria”. Now that really is large!

This one looks good installed. I would like to see it in an area with some authentic 20's colours and fittings - that could really be something!
